

16x128 Indoor

VMS

Variable Message Sign

The 16x128 VMS is very popular for indoor use as it is just over a metre long with the ability to have two lines of text or one line of a larger size. This sign has a black aluminium casing and has a central pivot at each end allowing the sign to be tilted for better visibility.

Features

- Display on one or two lines
- User programmable graphics
- Infrared remote control
- Built in computer port
- Insert time & date
- Aluminium frame
